Qosina Medical-Grade Black Opaque Male Luer Lock Syringe

Edgewood, N.Y., July 13, 2005 – Qosina is pleased to add a medical-grade, black opaque male luer lock syringe (**Part # 13134**) to our inventory. Our syringe is made from high-density, acid resistant polypropylene approved for medical applications.

This syringe is excellent for use with UV or visible light curing. It can also dispense low viscosity materials and fissure sealants. The barrel/plunger assembly has a non-reactive silicone seal assuring material compatibility.

Qosina also offers other components; luer caps, tip adapters, dispensing tips and cap stands for use with our syringes. Visit our website, qosina.com for a comprehensive list of over 5000 products. Call our Customer Specialists for assistance regarding a catalog, sampling request or an order at +1 (631) 242-3270, fax +1 (631) 242-3291 or e-mail info@qosmedix.com. Custom sourcing service is available by our knowledgeable specialists using Qosina's extensive resources.

Qosina is an ISO 9001:2000, ISO 14001 registered worldwide supplier of stock and custom-made OEM disposable components including: stock connectors, luers, caps, clamps, adapters, stopcocks, valves, spikes, syringes and tubing.
