

Qosina Nitrile Gloves

Edgewood, N.Y., October 4, 2005 – Qosina is adding several new disposable nitrile gloves to our inventory of procedure tray components. They are available in several sizes and colors: light blue, green or black. These accelerator-free, latex-free and powder-free gloves offer enhanced dexterity and reduced hand fatigue. Their composition is least likely to cause allergic reaction while supplying comfortable barrier protection against a variety of chemicals. Both the luminous green and black gloves have textured fingertips for increased gripping potential. Additionally, the black gloves are ESD and static dissipative making them an excellent choice for electronics and security environments. The luminous green gloves are a superior option for high visibility or color-coded assignments.

- < [Black Nitrile Gloves w/textured fingertips](#) #13110-2 Medium, Large, Extra-Large
- < [Green Nitrile Gloves w/ textured fingertips](#) #13113-5 Medium, Large, Extra-Large
- < [Blue Nitrile Gloves](#) #13116-8 Medium, Large, Extra-Large
